On your marks, get set, go...

Each team is provided with a construction kit containing **the same materials and tools** to build a soap box racer. Also included is a manual to help you along.

Having constructed this impressive vehicle, each team will have the opportunity to customise their creation and make it stand out from the rest. And obviously these speed machines will be tested and subjected to the rules of physics on a racing track.

A soap box race is the ultimate way to get to know one another as part of a team. Who is taking charge? Who will be revealed as a design talent? Who will be a daredevil and drive the soap box?

Your soap box will be 'tested' during **an incredibly tense soap box race**. Has the right technique been applied? Is it fast enough? Yes? In that case your team is likely to be the winner!

...Start!

**Communication, creativity and team spirit** are the basis for this team activity. The team will not achieve the desired result without consulting.

The team will also have to agree on how to decorate the soap box.

Which theme shall we adopt for our soapbox and how shall we bring it to life?

Are you a planner, creative, sporty or just competitive?  
Everyone will find his/her match.
