The Mouse Trap Game

The Mouse Trap Game

🕒 1 - 1,5 hours 👥 10 - 60

You no doubt remember the board game Mousetrap.

Pure childhood sentiment.

For this activity, we have taken certain principles of the board game and turned them into a corporate team building activity.

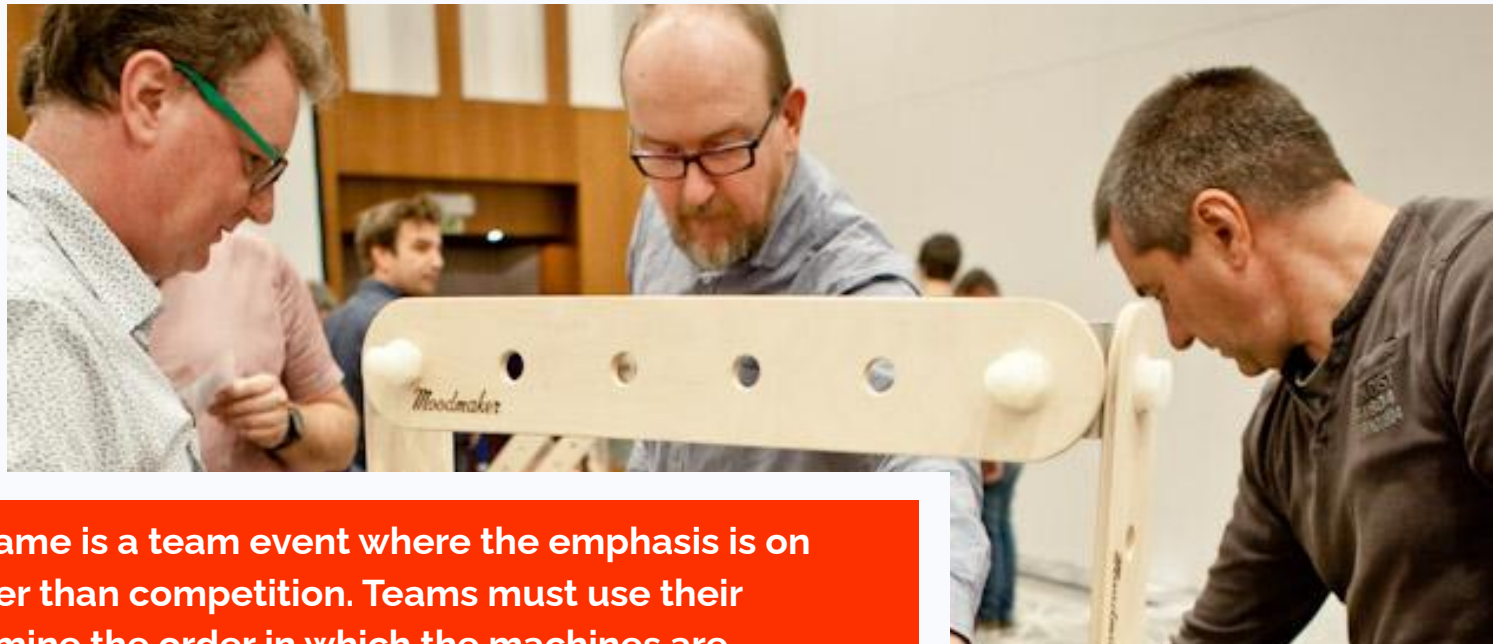

Together with your team, you build a series of large wooden structures, which create **an amazing chain reaction** when placed in the right order. In the process, each device ingeniously activates the next in line. If the teams do everything right, the last piece is activated and the one-tonne weight falls on the rat.

CREATIVE PEOPLE
BUILD STRONG BUSINESSES !

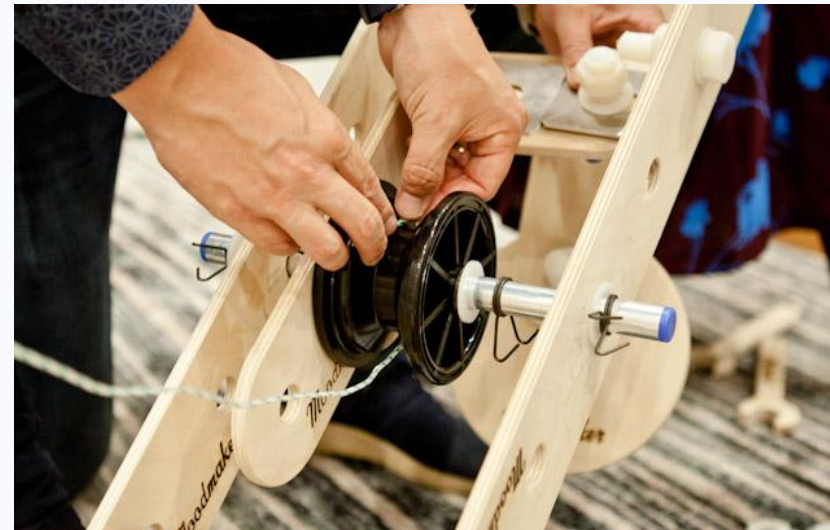

The Mouse Trap Game is a team event where the emphasis is on collaboration rather than competition. Teams must use their ingenuity to determine the order in which the machines are deployed. That means the end result is a unique representation of their efforts, ingenuity and communication.

The interesting thing about The Mouse Trap Game is that the teams are always aware of the bigger picture, as each structure has to be built in the right way and placed in the right position to make everything work.
