VR - Casa de Dinero

VR

VR - Casa de Dinero

🕒 1,5 - 2 hours 🧑 10 - 100

This virtual reality game is based on popular Netflix series “La Casa de Papel”. Step into the shoes of a real bank robber and let “El Professor” lead you and your team. This mysterious client challenges you to steal money from the Belgian National Bank.

By **solving challenging puzzles and riddles** in both the virtual and real world, you make your way through the bank and, as a team, reach your goal together. But make no mistake: time is ticking and you also have to get out on time!

Stress resistance, attention to detail, team spirit, creativity and speed are just some of the characteristics that typify your group's efforts to capture as much money as possible. Can your team handle this tension?

VR - Casa de Dinero

🕒 1,5 - 2 hours 👥 10 - 100

Per team, you receive **VR glasses** and have attributes you need to solve all riddles together.

This game contains **6 levels** in total. In each round, a different team member has the VR glasses on. In each round, the task is to progress one step further in El Professor's Master Plan.

In the **virtual world**, all kinds of hints and tips have to be collected, which you have to put together with the other game attributes you received. This way, you need to make your way to the safe, which you can hopefully crack. After that too, you have to get out of 'la Casa' before the bomb explodes.

VR - Casa de Dinero

CREATIVE PEOPLE
BUILD STRONG BUSINESSES !

Casa de Dinero is a light-hearted indoor team building activity and you introduce participants to the wonder world of VR (virtual reality).

Casa de Dinero is built around the principle of shared information: the person with the VR headset has one part of the information, the other team members have the other part. To be successful, good communication is therefore vital!
